

Our vision

- All children thriving
- Accessing inclusive, holistic and quality ECD services
- Early learning and development opportunities for every child

We support five key reforms.

1

- **We need a one-step registration process for ECD providers and different types of ECD providers must be regulated differently.**

2

- All children attending any type of ECD programme should be able to **access the early learning subsidy** if they need it.

3

- **Simpler, adequate health and safety standards** must be in place and must be accessed through one process.

4

- It must be made clear that you can get **conditional registration** when you can't meet all the registration requirements and MEC's must **support providers to meet requirements** and **report** on their systems of support.

5

- **The infrastructure needs of the sector must be supported.**

@ECDReform

Can't register
due to hundreds
of norms and
standards that are
too expensive
to meet?

Too tired of worrying
if you need hot water
or a parking lot at
your ECD centre when
you don't even have
access to electricity?

Frustrated that
your municipality
is failing to do the
checks you need
before you can
register?

Struggling to
complete lots of
confusing forms?

Disappointed by long
delays in processing
your registration
application?

Confused by all the
different steps in the
registration process?

Angry that your
children cannot
receive the subsidy
because your
programme is not
registered?

Unable to afford
the fees for fire
checks, title deeds
and building plans?

Frustrated at being
constantly conditionally
registered and having to
repeat the registration
process EVERY year?

MAKE YOUR VOICE HEARD!

#ECDinParly

The Children's Amendment Bill is currently being considered by Parliament. The Bill does not address the core reforms needed for strengthening the ECD sector and has the potential to create *additional* burdens and challenges for ECD providers.
